## **Dr. Mark Hyman, DDS, MAGD**

Dr. Hyman has earned national and international recognition, lecturing throughout North America and Europe at every major dental meeting. *Dentistry Today* magazine has selected Dr. Hyman as one of the top speakers in dentistry.

### **Morning Session: DENTISTRY'S TOP GAME CHANGERS: 20 innovations for successful teams**

When living life in the fast lane of private practice, how do you improve your patient's experience as we deliver optimal care? Highly successful teams constantly reimagine, reinvent and implement change to assure success during turbulent times. Prepare to laugh and learn about the Top 20 Game Changers!

- Evaluate and implement advances in dentistry
- Capitalize on individual skills of your dental team members to improve productivity
- Apply new techniques for keeping your team focused and enthused

### **Afternoon Session: A 360 Slam Dunk for Successful Teams**

"Change is inevitable – growth is optional."

In this fast past, ever changing world, dental teams must commit to taking a serious look at every aspect of the practice. With a comprehensive feedback process you gain insight into your performance, which allows you to identify opportunities for growth. Enjoy this fast paced, fun filled, dynamic seminar that will super charge your practice today!

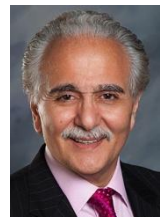

- Understand the urgency to lead and re-align your practice today.
- Rank the doctor and the team in the 35 key leadership issues for peak performing teams.
- Consider key communication barriers, and how to overcome them.
- Learn how to blend high tech and high touch relationship-based care.

## **Dr. Joseph J Massad, DDS**

Morning and Afternoon Session will be part 1 and part 2

### **The Latest in the Neuromuscular Denture & Overdenture with Digital Fabrication**

This presentation will detail the procedures for building the foundation for the Neuromuscular Complete Denture, Immediate Dentures and Implant Assisted Dentures. The latest analog procedures, from meeting your patient to impressioning, taking records, esthetic review and fabrication, with the choice of Conventional versus Digital Processing, will be discussed. This process yields the optimal placement of dental implants by doing dual scanning of the prosthesis in the implant planning stage. Many unique tips will be discussed to stay out of trouble and predict the outcome before beginning treatment.

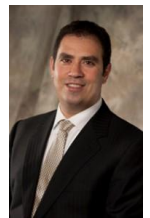

#### **Objectives:**

- To implement a digital assessment and examination protocol
- To make accurate impressions for edentulous, dentate and implant scenarios
- To be able to measure the esthetic and functional spaces to assist in determining final esthetics and implant vertical requirements.
- To understand the Neuromuscular importance while being able to record muscular resistance in shaping a natural comfortable prosthesis

## **Dr. Samir F. Zakaria, D.D.S., MSD.**

Dr. Zakaria lectures and provides continuing education training courses in periodontics and dental implants for hygienists, dentists and specialists. He has lectured extensively locally, nationally, and internationally for the last 23 years. Dr. Zakaria has invented, developed and performed the Minimally Invasive (Flapless Connective Tissue Graft). for the last 10 years with a great rate of success and wonderful results.

Morning Session and Afternoon Session in Two parts (Part 1 Morning/ Part 2 Afternoon):

**Navigating The New Classification of Periodontal and Peri-Implant Diseases and Conditions.** Understanding The Conventional and The Advance Treatments of Periodontal, Peri- Implant disease and Implant Treatments".

The new Classification was developed by the American Academy of Periodontology and the European Federation of Periodontology and was published June 26, 2018.

The presentation will address both conventional and advanced treatment of recession, mucogingival defects, furcation involvements, and guided tissue regeneration around teeth and implants.
